Product Information Sheet

Ideal LithoSeal Over Print Varnish

DESCRIPTION

Ideal LithoSeal offers a premium range of sheetfed offset, oil-based overprint varnishes designed for high-performance finishes and protection. Whether you're seeking a brilliant shine or a subtle matte effect, our range has you covered.

Ideal LithoSeal Non-Yellowing High Gloss OPV

Achieve a vibrant, reflective finish that enhances color depth and vibrancy. This product features fast-drying properties and excellent rub and scuff resistance. Gloss Range: 70 - 80 GU on a 60° angle on a gloss meter.

High Rub and Wax Free versions are available.

Ideal LithoSeal Non-Yellowing Satin OPV

A smooth, refined sheen that balances gloss with a touch of softness. This product features fast-drying properties and excellent rub and scuff resistance. Gloss Range: 30 - 40 GU on a 60° angle on a gloss meter.

Ideal LithoSeal Non-Yellowing Ultra Dull OPV

Perfect for creating a non-reflective, muted matte finish that exudes sophistication. This product features fast-drying properties and excellent rub and scuff resistance. Gloss Range: 10 GU on a 60° angle on a gloss meter.

Ideal LithoSeal Smooth Strike-Thu OPV

Designed for precise strike-through effects, giving you a tactile and visual contrast.

Ideal LithoSeal High Gloss OPV

Achieve a vibrant, reflective finish that enhances color depth and vibrancy. This product features fast-drying properties and excellent rub and scuff resistance. Gloss Range: 70 - 80 GU on a 60° angle on a gloss meter.

High Rub and Wax Free versions are available.
