## Autowash MX

Automatic Roller and Blanket Wash for Hybrid UV / Conventional Inks

### PRODUCT DESCRIPTION

Autowash MX is a highly effective roller and blanket wash designed for hybrid UV and conventional inks. Autowash MX is suitable for manual washing and automatic wash-up equipment. This product is formulated to provide superior performance with UV and conventional inks, eliminating the need for 2 separate products. It's slow evaporation rate and moderate cleaning strength will quickly break down and remove inks while deep clean rollers and blankets and when mixed with water, will help remove water-soluble glaze, paper lint and coating, gums, and surfactant residue. Autowash MX does not contain aromatic solvents.

**This product does not contain nonylphenol products or chlorinated solvents.**

### DIRECTIONS FOR USE

**ROLLERS:** Can be used straight or diluted with up to 30% water. Apply across the top of the roller train. Allow the product to run down the roller train for a few minutes and engage the washup blade. Reapply as necessary until the fluid runs clear into the wash up tray.

**BLANKETS:** Using a saturated cloth, apply full strength or mixed with up to 30% water.  
**DO NOT APPLY WHILE PRESS IS IN MOTION.**

**AUTOMATIC UNITS:** This product is recommended for automatic wash-up units.

### PRODUCT CHARACTERISTICS / DETAILS

- Highly Effective Hybrid UV wash
- Flash Point: 61°C (142°F)
- Vapour Pressure: 0.3770 mmHg @ 20° C
- VOC: 800.96 g/L (6.67 Lbs/Gallon)
- Slow drying wash
- High Strength
- Contains corrosion inhibitors for added protection

### HMIS RATING

Health:	1	Flammability:	2
Reactivity:	0	Personal Protection:	B

### PACKAGING

10 Litre Bottle	20 Litre Cube
205 Litre Drum	1100 Litre SS IBC Tank

### DISCLAIMER:

To the best of our and our suppliers' knowledge, and provided that the product(s) in question is (are) used in accordance with the information given in the product information / technical data sheet and correctly processed, and provided that the food packaging is designed in a way that there is no intended direct food contact, the individual components of the product(s) in question are either: generally recognized as safe and/or have certified food grade compliance. Furthermore, providing this product is disposed of in accordance with your Municipalities regulations, this product is considered environmentally safe.
