

Ideal NPA (Non-Piling Additive)

Fountain Additive for Improved Performance and Quality

DESCRIPTION

Ideal NPA is a non-glycol-based fountain additive formulated to reduce or eliminate blanket piling and hickies. Ideal NPA will keep printing blankets cleaner, resulting in fewer stops to wash printing blankets. With the reduction or elimination of piling, Ideal NPA also offers added plate protection, by significantly reducing unwanted debris on the blanket which can transfer to the printing plate causing scratches / premature plate wear. Regular use of Ideal NPA can result in increased production and reduced waste.

DIRECTIONS FOR USE

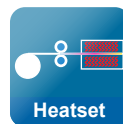

Add 2 to 4 ounces of Ideal Non-Piling Additive to mixed fountain solution.

Ideal NPA will not alter pH or conductivity.

BENEFITS

- Eliminates piling and hickies
- Compatible with all fountain solutions
- Lubricates printing blanket
- Increased intervals between blanket wash
- Non-Glycol based formula
- Overall waste reduction

HMIS RATING

Health:	1	Flammability:	1
Reactivity:	0	Personal Protection:	B

PACKAGING

10 Litre Bottle	20 Litre Cube
208 Litre Drum	1100 Litre Plastic Totes

DISCLAIMER:

To the best of our and our suppliers' knowledge, and provided that the product(s) in question is (are) used in accordance with the information given in the product information / technical data sheet and correctly processed, and provided that the food packaging is designed in a way that there is no intended direct food contact, the individual components of the product(s) in question are either: generally recognized as safe and/or have certified food grade compliance. Furthermore, providing this product is disposed of in accordance with your Municipalities regulations, this product is considered environmentally safe.
