Product Information Sheet

Autowash 2050 Automatic Roller and Blanket Wash

PRODUCT DESCRIPTION

Autowash 2050 is a medium strength press wash for use with conventional inks and can be used for manual cleaning with a saturated cloth, or with automatic wash-up equipment. It's moderate cleaning strength and drying properties allow it to quickly break down ink, leaving rubber rollers and blankets clean and ready to print in a shorter period of time. When mixed with water, Autowash 2050 will remove both water-soluble and solvent soluble glaze in one step.

This product does not contain nonylphenol products or chlorinated solvents.

DIRECTIONS

ROLLERS: Can be used straight or diluted with up to 30% water. Apply across the top of the roller train. Allow the product to run down the roller train for a few minutes and engage the washup blade. Reapply as necessary until the fluid runs clear into the wash up tray. **DO NOT ALLOW ROLLER TRAIN TO RUN DRY.**

BLANKETS: Using a saturated cloth, apply to blankets full strength or mixed with up to 30% water. **DO NOT APPLY WHILE PRESS IS IN MOTION.**

AUTOMATIC UNITS: This product is recommended for automatic wash-up units.

PRODUCT CHARACTERISTICS

- Flash Point: 41°C (105.8°F)
- Vapour Pressure: 0.7092 mmHg @ 20° C
- VOC: 772.02 g/L (6.43 Lbs/Gallon)
- Slow dry roller and blanket wash for deep cleaning
- Medium solvent strength
- Contains corrosion inhibitors for added protection

HMIS RATING

Health:	1	Flammability:	2
Reactivity:	0	Personal Protection:	B

PACKAGING

10 Litre Bottle	20 Litre Cube
205 Litre Drum	1100 Litre SS IBC Tank

DISCLAIMER:

To the best of our and our suppliers' knowledge, and provided that the product(s) in question is (are) used in accordance with the information given in the product information / technical data sheet and correctly processed, and provided that the food packaging is designed in a way that there is no intended direct food contact, the individual components of the product(s) in question are either: generally recognized as safe and/or have certified food grade compliance. Furthermore, providing this product is disposed of in accordance with your Municipalities regulations, this product is considered environmentally safe.
